ELAVON AND BOOKINGTEK

Elavon and BookingTek have joined forces to deliver free touchless order pay technology to hospitality and restaurant businesses around the world.

Restaurants of all types have access to the TableRes order pay mobile app with free software for life, a cost saving of up to \$10,000 from normal software pricing.

OMNICHANNEL DIGITAL ORDERING

Enable customers to order from anywhere, at any time on any device and let them choose how to receive their food - served at table, collect from the counter or delivery.

Multi-channel loyalty is seamlessly integrated with the ordering process and POS. Available offers and rewards are automatically calculated, and the bill is adjusted in real time.

to face interactions and eliminating contact with physical items that have been touched by many hands like printed menus, bills and credit cards.

The App can help control costs. With guests self-ordering, it's possible to lower the number of front of house staff required for each shift without impacting service levels.

SINGLEPAY

TableRes Digital's integrated payment system, SINGLEPAY, makes in-app ecommerce quick, easy and cost effective. The unique solution uses a minimal number of e-merchant accounts to service multiple restaurants in the same ownership. This makes for speedy setup, reduced fees and simplified management.
